(additional charge payable for these services)

FIRST-CLASS SERVICES IN THE HIRSLANDEN CHECK-UP CENTRES

Why a check-up?

Good health is a fundamental requirement for a high quality of life. Regular check-ups help to identify and treat disorders at an early stage, and to prevent more serious complaints arising. We will show you how you can best keep yourself in health and improve your general wellbeing.

From what age should people get a check-up?

Ideally from the age of 35, or earlier if there are any specific stress or risk factors.

How long does a check-up take?

An executive check-up takes one day. A second day should be pencilled for additional examinations.

Where will I find further information?

For more detailed information about our services, visit:
www.hirslanden.com/checkup
or call us on +41 (0)43 499 20 30.

What does the Hirslanden check-up entail?

- Detailed consultation with the check-up specialists to determine the state of your health
- Complete medical examination (including vaccinations, sight and hearing tests, screening for skin alterations), assessment of your physical condition
- Extensive blood analysis (including diabetes screening), resting and exercise ECG (ergometry), lung function test, functional examination of the spine
- Prostate screening, screening for source of bleeding in the gastrointestinal tract
- MRI or ultrasound (CT only on medical indication)
- Snacks and lunch
- Discussion of all examination findings, including handover of health dossier
- Personal advice regarding nutrition, active stress reduction, exercise and so on

This kind of check-up is carried out in one day. The check-up may last 2 days if further extensive investigations/additional examinations are required.

Additional examinations possible as agreed.
